Subcommittee Recommends Only Flat Declaration That Voter "Is a Democrat."

"Is a Democrat."

Indications point to a warm fight in the City Democratic Committee at Murphy's Hotel to-night over the final adoption of the plan to be used in the municipal primary to be held here on June 24, though it is believed that the recommendations of the subcommittee on plans will be approved with but few changes. The principal controversy is over the character of the pledge to be placed on the ticket. There is an element in the general committee which is favorable to a more stringent pledge than that which will be recommended by the committee on plans. The plan, as recommended, however, will be earnestly supported by some of the strongest leaders in the body, chances now seeming to be favorable to its adoption practically as a whole. The pledge agreed upon by the plans committee is a very simple one, though it would seem to be broad enough to satisfy nearly all elements in the party. It provides only that "the person voting this ticket hereby declares that he is a Democrat." An effort will be made to so amend as to specify that the voter shall bind himself to support the nominees of future primaries, though the better opinion is that such amendment will be lost. The question of assessments will cause some debate, but no sharp disagreements. An effort is being made to have every member of the committee present, as relther faction appears absolutely confident of victory in advance. Charles B. Brooks a member of the committee from Clay Ward, is absent from the city. He was communicated with in Baltimore yesterday, and asked to attend to-night's meeting if possible.
